

Logs & Records in Dossier Space Pilot

Here are all the logs/records we have set up:

PRIMARY GOVERNANCE

Location: E:\AAll XPlain\Dossier Space Pilot\Governance Ledger\

1. **session-ledger.jsonl** (103KB+, primary)
 - Append-only JSON Lines file
 - Every tool call, decision, gap, session event
 - Current entries: A01-A09+ (and growing)
 - Immutable audit trail
 2. **session-ledger-DEGRADED.jsonl** (fallback)
 - Used only if primary write fails
 - Fail-closed backup
-

SESSION AUDIT LOGS

Location: E:\AAll XPlain\Dossier Space Pilot\Governance Ledger\

3. **session_11_audit_log.txt**
 - Session 11 notes/observations
 4. **session_12_audit_log.txt**
 - Session 12 notes/observations
 5. **session_12_design_lead_log.txt**
 - Claude (Design Lead) notes from Session 12
-

INVESTIGATION OUTPUTS

Location: E:\AAll XPlain\Dossier Space Pilot\ENRON Data Set Test 1\findings\

6. **F-NNN-short-title.md** files

- ROMER-format findings from Sessions 5-12
 - Example: F-005 through F-014 from Session 12 (Kaminski/LJM analysis)
-

RESULT SETS & ARCHIVED OUTPUTS

Location: E:\AAll XPlain\Dossier Space Pilot\Governance Ledger\results\

7. Result Set Files

- Named: <action_id>_result_set.<format>
- Example: DS-202608xx-S12-A05_result_set.txt
- Contains: search results, file lists, etc.

8. Hash Files

- Integrity anchors for files examined
-

SESSION TRANSCRIPTS & MEMORIES

Location: E:\AAll XPlain\Dossier Space Pilot\transcripts\

9. Session Transcripts

- Full conversation records
- One per session

10. Subject Memory Exhibit

- Claude Code's persisted memory from earlier sessions
-

HISTORICAL EXHIBITS

Location: E:\AAll XPlain\Dossier Space Pilot\

- 11. **git-repo-exhibit-2026-07-15/** — Archived Git deliverables
- 12. **recovered-artefacts-exhibit/** — Historical artifacts
- 13. **run12B-outputs-exhibit/** — Session outputs

14. **session5-P5-outputs-exhibit/** — Historical session data

15. **session5-transcript-exhibit/** — Historical transcripts

16. **subject-memory-exhibit/** — Historical memory snapshots

QUICK REFERENCE TABLE

Log/Record	Location	Type	Managed By	Read/Write
session-ledger.jsonl	Governance Ledger/	JSON Lines	Custody Server	Append-only
session-ledger-DEGRADED.jsonl	Governance Ledger/	JSON Lines	Custody Server	Append-only (failover)
session_NN_audit_log.txt	Governance Ledger/	Text	Manual	Ken or Claude
session_NN_design_lead_log.txt	Governance Ledger/	Text	Manual	Claude (Design Lead)
F-NNN-*.md	ENRON Data Set Test 1/findings/	Markdown	Claude Code	ROMER findings
Result sets	Governance Ledger/results/	TXT/JSONL	Custody Server	Archived outputs
Session transcripts	transcripts/	Text	System	Session records
Subject memory	subject-memory-exhibit/	JSON	Claude Code	State snapshots

The main ones you should care about:

- **session-ledger.jsonl** — THE governance record (every action logged here)

- **F-NNN-*.md files** — Investigation findings (published output)
- **session_NN_audit_log.txt** — Session notes (if you need to add manual notes)

The rest are either historical or generated automatically.
